Keywords: Type your keywords here, separated by semicolons ;

I. Main text

Here write your paper in sections (Introduction, Related Work, Proposed Work, Results and Discussion, conclusion, and References). Inside section use font (Times New Roman 10 pt) all section titles must be Bold.

1.2. Tables

All tables should be numbered with Arabic numerals. Headings should be placed above tables, left justified. Leave one-line space between the heading and the table. Only horizontal lines should be used within a table, to distinguish the column
headings from the body of the table, and immediately above and below the table. Tables must be embedded into the text and not supplied separately. Below is an example which authors may find useful.
